

# Positive Approach to Dementia Care: Normal Aging versus Not Normal Aging

**August 9, 2018**

The Apostolic Church of Auburn Hills Campus  
3655 N. Squirrel Road, Auburn Hills, MI 48326

Normal versus Not Normal Aging: This seminar focuses on Positive Approach to Dementia Care techniques, including Positive Physical Approach™. You will develop new skills related to approach, cueing, and ability to connect with people affected by dementia. Additionally, you will learn “normal” aging versus “not normal” aging related to various cognitive functions.

Be prepared for a high-energy, hands-on session that provides you with practical tools and techniques which you will want to share with your staff and immediately put into practice.

As the years slip by, we begin to notice we are changing. Those first strands of gray hair are a sign of the inevitable. Our changing bodies may grow a little rounder in the waistline. We may also begin to notice changes in our brains. We may not be as quick as we use to be or we may have a tougher time remembering an acquaintance’s name. Have you ever wondered if these brain changes are a part of normal aging? This light-hearted presentation will address the serious concerns that many of us share regarding what is “normal aging” and what is not “normal aging.”

**Presenter:** Brenda Roberts, MALA Director of Quality Assurance and Education

- Certificate in Advanced Clinical Practice in Dementia
- MA in Education Administration and Community Leadership with a focus on the adult learner
- PAC (Positive Approach to Brain Change/Teepa Snow) Certified Trainer, Consultant, Coach and Engagement Leader
- Care Partner for her husband who is living with young-onset dementia

Registration: 12:30 pm | Seminar: 1:00 - 4:15 pm

**“Until There’s a Cure... THERE’S CARE!” -Teepa Snow**

The faculty and planning committee have declared no conflict of interest.

GEMS™ classification and POSITIVE APPROACH™ techniques, strategies, and overall approach to care were created and developed by Teepa Snow, Positive Approach, LLC. GEMS™ classification and POSITIVE APPROACH™ are trademarks of Positive Approach, LLC.
